PROFESSIONAL PROFILE

Leadership: Strong communication, leadership, and problem-solving abilities; adept at task prioritization, time management, and personnel management for 25+ crew and contractors onboard vessels up to 50M.

Project & Risk Management: Extensive experience in global shipyards, supervising contractors within budget and deadlines, with a focus on cost efficiency and quality. Proficient in ISM and ISPS standards.

Technical Engineering: Skilled in operating machinery and power tools, interpreting technical drawings and CAD designs, and servicing marine diesel engines, HVAC systems, and electrical wiring.

IT & OT Skills: Knowledgeable in yacht networks, IP fundamentals, network security, and cyber security assessments in compliance with ISM standards.

Computer Skills: Proficient in MS Excel, MS Word, MacOS/Windows operating systems, and Asset Management Software (IDEA). Skilled in business website design and social media marketing strategies.

Dynamic and experienced Captain and Project Manager with a diverse background and skill set seeking a full-time shore-based project management role. Committed to leveraging extensive maritime expertise and proven leadership skills to oversee and execute complex projects, ensuring compliance with industry standards while fostering a collaborative and efficient work environment.

PERSONAL TIME

2022 - 2024

- Relocated to South Africa at the end of 2021 to explore land-based business opportunities due to the effects of the COVID-19 pandemic and personal circumstances.
- Purchased land and oversaw the successful construction of a home from 2023-2024, ensuring the project was completed on time and within budget.
- Actively pursued new career opportunities in 2024, while furthering professional development through various online yacht and IT-related courses, including training completed as Survival Ranger & Instructor and certifications in Firearms Training & Certification, ISPS Ship Security Officer, Cyber Security Awareness, Li-ION Battery Safety Course, Drugs Abuse Awareness, IT Level 1 & AV Level 1 - BOND Tech Management.
- Generated additional income by rebuilding and selling motorhomes and caravans.

COSTA RICA HOTEL LODGE

PROJECT MANAGER | 2016 - 2021 | *Costa Rica*

https://www.arbolverdecostarica.com

Project Design Presentation: Arbol Verde Lodge Presentation

- Led the reconstruction and renovation of an abandoned 14-unit property in Central America, transforming it into a luxury eco-lodge.
- Developed and managed business website, booking platform, marketing, and advertising.
- Managed the design team, collaborating with architects, contractors, and landscape designers, while supervising all construction and renovation work, including locally sourcing materials.
- Handled financial planning, obtained estimates, and ensured the project was completed on time and within budget.
- Designed and installed a pressurized septic wastewater system, a water management system with rainwater harvesting capabilities, and oversaw the rewiring of electrical DB panels and property mains.
- Co-owned and managed the eco-lodge while simultaneously operating marine services business, Bow 2 Stern, during Costa Rica's off-season.

BOW 2 STERN YACHTING | VARIOUS VESSELS 24M - 40M

OWNER/CAPTAIN/ENGINEER (FREELANCE) | 2017 - 2022

http://www.b2syachting.com/

Owned and operated company, Bow 2 Stern. Managed crews ranging from 5 to 8, hosting up to 15 guests on trips that varied from day trips to two-week charters, averaging 2-3 trips per month.

PROFESSIONAL REFERENCES

PROVIDED SEPARATELY

M/Y OCEAN DRIVE | 30M Benetti Delfino

CAPTAIN/ENGINEER | 2014 - 2016

Caribbean/Hamptons/Lauderdale Marine Centre, USA

- Oversaw two extensive yard periods at LMC Fort Lauderdale, managing shipyard projects, negotiating with contractors, and ensuring all work was completed on time and budget.
- Implemented and maintained a strict onboard maintenance schedule utilizing IDEA, setting up maintenance records, checklists, and operating manuals for all systems.
- Supervised key technical upgrades and repairs, including drydock and hull surveys, bottom and top-side paint jobs, as well as mechanical overhauls of main engines, generators, stabilizers, hydraulic steering, bow and stern thrusters, and water pumps.
- Managed complex systems including electrical shore power inverters, air conditioning, sewage treatment plant upgrades, hydraulic systems, and fire and safety equipment.
- Maintained advanced IT, AV, navigational, and sat comms systems, ensuring seamless operations for family and business trips.
- Led a full-time crew of 5, hosting up to 15 guests on day trips, with dual seasons spent in the Caribbean and Hamptons.

M/Y JESSICA | 34M Westport

CAPTAIN/ENGINEER | 2013

East Coast USA/Rolly Marine Fort Lauderdale, FL

- Took over during a three-month shipyard period, addressing multiple mechanical and electronics issues, including steering electrical faults and generator services.
- Installed an inverter cooling system, replaced water pumps, rebuilt the hydraulic davit, and serviced main engines and transmissions.
- Managed the complete replacement of the air conditioning system and oversaw interior upgrades, including ceilings and flooring.
- Operated under a strict budget with a demanding itinerary, working closely with 4 crew and live-aboard owner, hosting additional family members on occasion.

M/Y ZIACANIA | 30M Ferretti

CAPTAIN/ENGINEER | 2008 - 2013 | *Med/Caribbean/Bahamas*

- Operated an ISM-compliant and technically challenging charter yacht managed by Camper & Nicholsons, utilizing Vessel Management System.
- Managed a crew of 4-5 while hosting 8-10 charter guests on trips lasting 7-10 days, averaging 2-3 trips per month.
- Oversaw maintenance and operations, ensuring the yacht adhered to ISM standards.
- Attended shipyards at Ferretti (La Spezia), Lusben (Viareggio), and LMC (Fort Lauderdale).

3 Month Yard Period - Lusben Viareggio, Italy

- Completed a drydock and flag state survey, changing the vessel's flag to Malta Commercial Code, and implementing the ISM with updated safety procedures and manuals.
- Redesigned and installed a new bilge and fire pump system, upgraded LSA & FFE systems to comply with SOLAS ISM Code, and installed a new ASEA shore power inverter system to prepare the vessel for commercial charter use.

5 Month Yard Period - LMC Fort Lauderdale, USA

- Projects included teak decking, gelcoat and painting, exterior and interior refurbishing, and upgrades to the AV, sat, and entertainment systems, as well as navigational equipment.
- Performed extensive maintenance services, including main and auxiliary engines, shafts, and props, modified the A/C system, installed surveillance equipment, and completed deck and engine room projects in preparation for presentation at the Miami Boat Show.

M/Y PERCAL 2 | 34M Baglietto

CAPTAIN/ENGINEER | 2008 | *Baglietto (La Spezia IT)*

- Took delivery of the yacht from shipyard, completing a full inspection and inventory.
- Oversaw final technical and mechanical work, conducting sea trials and tests to ensure everything met operational standards.
- Ensured legal and regulatory compliance, managing the yacht's registration, insurance, and signing off on the final acceptance from the shipyard.

ADDITIONAL POSITIONS (2002 - 2007) AVAILABLE UPON REQUEST
